

# COS30043: Interface Design and Development

## Credit Task 3.4: Registration Form Web App

**Name: Tran Quoc Dung**

**Student ID: 103803891**

The screenshot shows a web browser window with the title "Credit Task 3.4: Registration Form". The URL is "C:/Users/ZungBi/Desktop/Swinburne/COS30043%20Interface%20Design%20and%20Development/Week%203/3.4C/register1.html". The page content is titled "Registration App: Cloud Service" and includes three main sections: "Login Information" with fields for "Enter user name:", "Enter password:", and "Re-enter password:"; "Phone Information" with radio buttons for "Operating System" (Android, iOS, Windows) and a "Model" dropdown menu; and a "Summary" section with a bulleted list of fields: Username, OS, and Phone.

Registration Form Webpage (default)

This screenshot shows the same registration form after user interaction. In the "Login Information" section, the "Enter user name:" field contains "dungbi", and the "Enter password:" and "Re-enter password:" fields contain masked text. A red error message, "\*Password does not match", is displayed below the password fields. In the "Phone Information" section, the "Operating System" radio buttons show "iOS" as selected, and the "Model" dropdown menu is open, displaying a list of options: "iPhone Xs Max", "iPhone X", "iPhone Xs Max", "iPhone 11 Pro Max", and "IDD Windows Non Android". The "Summary" section now displays the entered values as a bulleted list: "Username: dungbi", "OS: iOS", and "Phone: iPhone Xs Max".

Registration Form Webpage outputs.
